

# MOD-EX 25<sup>tcw</sup>

UK Patent Application GB 2510360

## Vacuum Excavator

### Reduce the Footprint - Reduce the Risk

#### Energy

Most powerful mini Vac-Ex in the world

#### Economy

Up to 4 times cheaper than hand dig

#### Environment

Recycle your debris

#### Efficiency

Up to 10 times faster than hand dig

The Mod-Ex 25 tcw (track, compressor & water) is a remote controlled, self-contained Vac-Ex unit primarily designed for safe, non-aggressive and non-invasive excavation around buried utilities and non-removable obstructions.

Narrow footprint 1m wide

Cut service strikes

Combat high insurance premiums

Improve your H&S record

Remove the need for a mini digger

Reduce traffic management cost

Fully Remote Control

The **Mod-Ex 25 tcw** evolved from our existing, proven Vac-Ex units that operate around the world.

4x4 track-based for mobility. A compact footprint allows access to tight and remote areas without compromise to power.

The **25 tcw** incorporates both an on-board compressor to power an AIR-EX lance for dry excavation and high pressure water lance to agitate the most stubborn material.

## Vacuum Excavator

### TECHNICAL DATA

### 25 TCW

Length	4150mm
Width	1000mm
Height (closed)	2350mm
Height (open)	2450mm
Weight (tare)	3200kg
Maximum load	880kg
Spoil capacity	0.4m <sup>3</sup>
Pipe inlet Ø	125mm / 150mm
Compressor	127 cfm @ 7 bar
HP water	2500 psi
Tracks	4x4

Vac-Ex reserve the right to change specification without prior notice.

### UTILISATION

Civil Engineering
Gas
Water
Electric
Environment
Nuclear
Street Works
Building
Rail
Power
Aviation
Petrochem
